

## **LABSTAT INTERNATIONAL ULC**

Established in 1976, Labstat International ULC is an independent, privately owned, analytical laboratory dedicated to tobacco testing, research and development, and analysis for regulatory reporting and labeling for worldwide interests. As a leader in tobacco science, we offer our clients experience, breadth of scope, leading edge technology, flexibility and capacity to produce quality and timely results.

**As a result of our continuing expansion, we have several career opportunities available.**

### ***6 month Contract – Analyst***

Working as a member of an analytical team accountable for the generation of analytical results within an ISO 17025 environment, as an Analyst you will be expected to carry out the responsibilities of the day-to-day operation of analytical equipment. These tasks include the preparation of solutions, calibration and routine maintenance of instruments, the running of samples, calculation of results, and the monitoring of controls used in the analytical process.

Knowledge of method validation and the analysis of QC materials beyond the scope of routine analysis is an asset. As well as past experience with purchase requisition forms to order supplies/parts for the analysis and machine maintenance, in addition to, maintain communication with the instrument repair representative(s) during service calls. An ability to troubleshoot is essential.

#### **Evidence of the following is required:**

- **Knowledgeable in using chemicals properly and safely**
- **Able to calibrate instrument as per SOP**
- **Thorough understanding of contamination**
- **Able to prioritize to remain efficient**
- **Ability to work while under pressure and with various distractions**
- **Able to demonstrate effective communication skills**
- **Able to see small details for measurement of liquids, preparation of standards and maintenance required on instrumentation (GLP)**

The successful candidate will possess a B.Sc. or M.Sc. (Chemistry, preferred) with at least 2 years experience working with ICP-AES, ICP-MS, Atomic Absorption Spectroscopy, GC, GCMS and/or HPLC. Extensive knowledge of Microsoft Office (Word and Excel) is also a requirement.

**Labstat offers competitive wages, benefit package, vacation schedule, training programs and social events.**

**Labstat values a diverse workforce.**
